

The image is a promotional advertisement for Hamburg Süd, a Maersk company. It features a collage of three distinct scenes: a man in a white shirt looking out from a ship's bridge at sunset, a lush green hillside, and a red cargo ship on the ocean under a blue sky. The company logo and name are positioned at the top center, and the slogan is centered in the lower half.

HAMBURG  SÜD
A Maersk Company

More: ECO Delivery.
Always: **By your side.**

ECO Delivery

The sustainable choice.

You want to do business – but would you like to do it sustainably, too? Together, we can accept responsibility for present and future generations. We make it possible for you to save CO₂ emissions and thereby do something for the environment – while also achieving your company's climate goals.

More: Low-carbon biofuels.

Instead of just offsetting CO₂ emissions by planting trees, ECO Delivery genuinely reduces them – by investing in and using low-carbon biofuels. By opting for ECO Delivery, you are encouraging the expansion of the market for low-carbon biofuels. For more transparency, you also receive a certificate showing the amount of CO₂ you have saved.

More: Sustainability.

You will make supply chains more sustainable while achieving your company's sustainability goals even faster at the same time. You and your brand can stand for more sustainability – especially in the eyes of climate-conscious trade partners, logistics companies and consumers.

More: CO₂ certification.

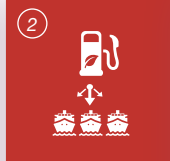

You pay a surcharge per container loaded. We invest 100 per cent of these funds in low-carbon biofuel from waste materials – certified by the International Sustainability and Carbon Certification (ISCC) or the Roundtable for Sustainable Biomaterials (RSB). At the end of the contract, you will receive a CO₂ certificate, independently verified according to ISAE 3410.

By your side
